

The Bridge Consulting Process

seven steps to organizational excellence

Step 1

What is the problem?

We discover training necessities by conducting a needs assessment at the company, task, and/or associate levels.

Step 2

What is the impact?

During the Discovery Session, you'll gain an understanding of your training needs and its impact in your organization.

Step 3

What is the solution?

Values-centered organizational learning and development designed to achieve organizational excellence.

Step 4

How do we implement it?

We utilize customized workshops, seminars, and/or trainings to meet your unique organizational needs.

Step 5

What is the outcome?

Values of associates are aligned with the values and strategy of the organization to propel both to greater levels of performance.

Step 6

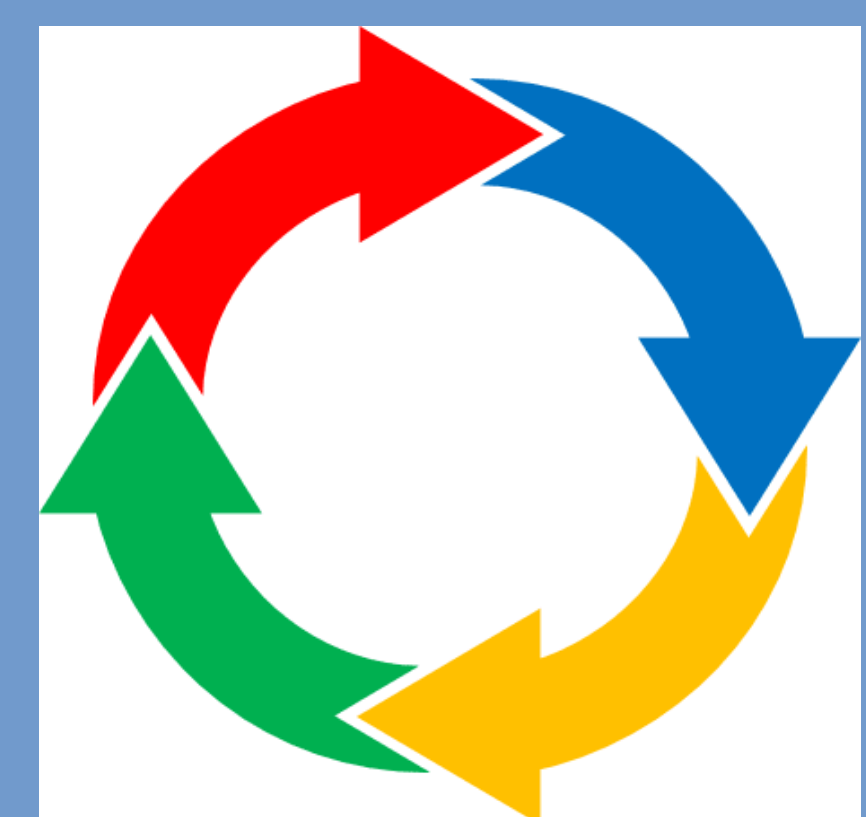

How do we measure it?

We will develop and implement an outcomes assessment to capture associates' feedback and develop a summary report.

Step 7

How do we sustain it?

We will provide on-going consulting services, ensuring transfer of learning to generate organizational excellence.
